#### CONSOLIDATED INTERIM MANAGEMENT REPORT

The Board of Directors presents its Interim Management Report to be followed by the Non-Audited, Interim Condensed Consolidated Financial Statements for the Company and its subsidiaries (the "Group") for the six-month period ended 30 June 2018.

#### 1. Principal activities, Going Concern, extraordinary activities and important events

On 8 March 2018 the Board of Directors of the Company approved the sale of its direct and indirect ownership interests in operating subsidiaries in Russia (JSC SUN InBev Russia) and Ukraine (PJSC SUN InBev Ukraine) to AB INBEV WESTERN EUROPEAN HOLDING B.V a fellow subsidiary under the common control of the Parent Company AB Inbev. The divestment decision was made following the Parent company's decision to merge the ABI Group's operations in Russia and Ukraine with Anadolu Efes (for more details see Note 2(b) – Going concern basis)

On 22 March 2018 AB INBEV WESTERN EUROPEAN HOLDING B.V and EFES BREWERIES INTERNATIONAL N.V. entered into a Framework Agreement (the "Framework Agreement"), pursuant to which the parties intend to form a joint venture of their respective businesses principally involved in the manufacturing, distribution, marketing and sale of Beer in Russia and Ukraine.

On 23 March 2018, the Group entities entered into a sale agreement with AB INBEV WESTERN EUROPEAN HOLDING B.V, for the sale of the business in Russia for the consideration of EUR 824,407 thousand and in Ukraine for the consideration of EUR 39,611 thousand. The total consideration (EUR 824,407 thousand) for the sale of the business in Russia was the result of two share purchase agreements with AB INBEV WESTERN EUROPEAN HOLDING B.V; whereby EUR 754,985 thousand was paid to SUN Interbrew Plc pursuant to the agreement between Sun Interbrew Plc and AB INBEV WESTERN EUROPEAN HOLDING B.V, and EUR 69,422 thousand was paid to Bevmar GmbH, SUN Interbrew Plc's fully owned subsidiary, pursuant to the agreement between Bevmar GmbH with AB INBEV WESTERN EUROPEAN HOLDING B.V.

On 30 March 2018, the Company announced that the merger had been completed.

The consideration was paid to the Group in full. The management was not able to estimate the financial effect of the above transaction by the date the consolidated financial statement were authorized for issue.

The principal activities of the Group have changed from the last year during the first semester. Up until the 31st of March 2018 the Group's activities included the manufacturing, marketing and distribution of beer and soft drinks. Following this date, the Group has no manufacturing, marketing or distribution activities or operations.

#### 2. Review of developments, position and performance of the Group's business

Economic analysis of the results and comparative economic analysis for the beer and soft drinks industry is presented only for 3 months of 2018 in relation to the previous corresponding period 2017.

The loss of the Group in the first half of 2018 was EUR 26,557 thousand (in the first half 2017: EUR 18,287 thousand). This is mostly driven by:

Russian beer industry volumes continued to be weak in the first half of 2018, with the Group's volumes down approximately 3,03 % as compared to the corresponding period in 2017. The volume decline is driven by Smart Size Project (approx. -5.6% weighted impact on full portfolio), while the rest is driven by market share decline in Russia by 0,89%.

Decrease in cost of sales expenses of 14 % due to decrease in the volume of sales.

In Ukraine, beer volumes declined by 5,27 % in the first half of 2018 as compared to the corresponding period in 2017, volume decrease is mainly driven by Off-trade due to ongoing

negative industry trend and extremely cold weather in March that impacted secondary sales, while the rest is driven by market share decline in Ukraine by 1,13%.

Revenue increased organically by 1,6 % in the first half of 2018 as compared to the first half of 2017. Cost of sales increased organically by 2 % for the corresponding period.

Net finance costs were 9,640 thousands Euro in the first half of 2018 as compared to 6,338 thousand Euro in the first half of 2017. Normalized losses attributable to equity holders increase in nominal terms to 26,557 thousand Euro in the first half of 2018 as compared to 18,287 thousand Euro in the first half of 2017, mainly due to change the principal activities of Group as result of the sale of direct and indirect ownership interests in operating subsidiaries in Russia (JSC SUN InBev Russia) and Ukraine (PJSC SUN InBev Ukraine). Basic and diluted loss per share (EPS) in the first half of 2018 increase as compare to the first half of 2017 (-0.22 Euro).

On 30 June 2018 the total assets of the Group were 859,806 thousand Euro (30 June 2017: 511,046 thousand Euro) and the net assets were 799,286 thousand Euro (30 June 2017: net assets (3,903) thousand Euro. The total assets of the Group and net assets on the 31st of December 2017 were respectively 556,950 thousand Euro and 6,208 thousand Euro.

The financial position, development and performance of the Company as presented in these financial statements are considered satisfactory.

The Group did not carry out any research and development activities during the year.

#### 3. Future developments of the Group

At Extraordinary General Meetings of the shareholders of the Group subsidiaries Abberton Consultants Limited (HE 107879), Devize Investments Limited (HE 107880), Flexbury Ventures Limited (HE 95325) and S.B. Management Services Limited, special resolutions were approved for the voluntary liquidation of these entities, and the liquidation is expected to materialize in the near future.

#### 4. Results

The Group's results for the Half-Year are set out on page 9 of the consolidated financial statements.

#### 5. Principal Risks and Uncertainties for the second semester of the financial year 2018

The principal risks and uncertainties faced by the Group were related with the respective businesses principally involved in the manufacturing, distribution, marketing and sale of Beer in Russia and Ukraine. The Group, following the disposal of its operating subsidiaries, has no risks for the second semester of the financial year 2018.

#### 6. Share capital

The authorized share capital which amounts to GBP 1,552,786 is divided into 125,278,614 class A shares of GBP 0.01 each and 30,000,000 class B shares of GBP 0.01 each.

#### 1. Background

#### a) Business environment

#### Russian business environment

Emerging markets such as Russia are subject to different risks than more developed markets, including economic, political and social, and legal and legislative risks. Laws and regulations affecting businesses in Russia continue to change rapidly, tax and regulatory frameworks are subject to varying interpretations. The future economic direction of Russia is heavily influenced by the fiscal and monetary policies adopted by the government, together with developments in the legal, regulatory, and political environment. Because Russia produces and exports large volumes of oil and gas, its economy is particularly sensitive to the price of oil and gas on the world market.

Starting from 2014, sanctions have been imposed in several packages by the U.S. and the E.U. on certain Russian officials, businessmen and companies. This led to reduced access of the Russian businesses to international capital markets.

The impact of further economic and political developments on future operations and financial position of the Group might be significant.

#### Ukrainian business and political environment

In the recent years, Ukraine has been in a political and economic turmoil. In 2016-2017, an armed conflict continued in certain parts of Luhansk and Donetsk regions. These events resulted in higher inflation, devaluation of the national currency against major foreign currencies, decrease of GDP, illiquidity and volatility of financial markets. In January 2016, the agreement on the free trade area between Ukraine and the EU came into force. As a result, the Russian Federation implemented a trade embargo or import duties on key Ukrainian export products. In response, Ukraine implemented similar measures against Russian products.

#### (b) Organisation and operations

SUN Interbrew Plc (the "Company") was redomiciled in Cyprus in December 2010, as a public limited liability company in accordance with the provisions of the Cyprus Companies Law, Cap. 113. The Company's registered office is 1 Lampousa Street, 1095 Nicosia, Cyprus. Before December 2010, the Company was registered under the name "SUN Interbrew Limited" and was incorporated in Jersey, the Channel Islands. The Company and its subsidiaries are collectively referred as the "Group". The Group is headed by Anheuser-Busch Inbev (the "Shareholder Group", "ABI").

As at 30 June 2018 and 2017 99.16% of the Company's preference shares (Class A) and 100% of the ordinary shares (Class B) were effectively owned by Anheuser-Busch InBev, which is the Company's ultimate parent company and ultimate controlling party (the "Parent"). The Company's immediate parent company is Worldoor Limited (the "Immediate Parent"), a company registered in Cyprus. The Company is listed on the Luxembourg Stock Exchange and has also a global depositary receipts program that is listed on the Luxembourg Stock Exchange and admitted to trading on the over-the-counter markets of the Berlin Stock Exchange, Stuttgart Stock Exchange and Frankfurt Stock Exchange.

The Company through a number of holding companies incorporated in Cyprus, Netherlands and Germany had controlling interests in the legal entities registered in Russia and Ukraine, which own 5 breweries and 2 malt plants in the Russian Federation and 3 breweries in Ukraine till the 31 of March 2018. The Board of Directors of the Company approved the sale of its operating subsidiaries to a related party and the sale transaction was executed in March 2018.

The Group manufactured, marketed and distributed beers till the 31 of March 2018. The Group's operations were primary located in the Russian Federation and secondarily in Ukraine. The majority of the Group's funding comes from cash generated from its normal operating activities. In addition, when necessary, the Group seeks additional sources of support from within the group of companies headed by the Shareholder Group. As a result, the Group is economically dependent upon the Shareholder Group. In addition, the activities of the Group are closely linked with the requirements of the Shareholder Group. Basis of preparation

#### 2. Basis of preparation

#### (a) Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU), the requirements of the Cyprus Companies Law, Cap.113. and the Cyprus Transparency Requirements (Securities for Trading on Regulated Markets) Law of 2007 as amended.

#### (b) Going concern basis

In August 2017, the ultimate parent company, Anheuser-Busch Inbev ("AB InBev"), issued a press release announcing a non-binding agreement with Anadolu Efes, the leading brewer in Turkey, regarding a 50:50 merger of AB InBev's and Anadolu Efes' existing Russia and Ukraine businesses. This announcement followed AB InBev's acquisition of a 24% stake in Anadolu Efes as part of the AB InBev's combination with SABMiller, which was completed in October 2016. The merge transaction remained conditional on the completion of satisfactory due diligence and was subject to regulatory approvals in Russia, Ukraine and other authorities. The combination of the companies' operations in Russia and Ukraine would strengthen the competitive position of both AB InBev's and Anadolu Efes' brands in these markets, with the potential for further growth. The combined business' ambitions would be to lead the Russian and Ukrainian markets, with a diverse portfolio of brands and a broader range of beers for consumers. During 2018, the merge transaction was approved by the regulatory authorities and the relevant Framework agreement was concluded and signed by AB InBev Group and Anadolu Efes. As a part of the merger process between AB InBev Group and Anadolu Efes in Russia and Ukraine, the Company disposed of its ownership interests in its operating subsidiaries in Russia and Ukraine.

As a result, of the post year-end disposal, the directors evaluated whether the going concern assumption was still appropriate for the Group in preparing these consolidated financial statements. In making this judgement, the management has considered whether in accordance with IAS 1 'Presentation of financial statement' and IAS 10 'Events after the Reporting Period' the going concern assumption is still applicable for the preparation of these consolidated financial statements, and evaluated the following factors:

- The Group management has indicated its intention to continue to explore investment opportunities for acquiring or transferring new operating subsidiaries to the Group to allow it to continue its operations as a going concern;
- The consideration for the disposal of the operating subsidiaries was fully paid in cash, thus increasing the liquidity of the Group;
- Following the disposal of its operating subsidiaries, the Group is therefore financially able to invest in new acquisitions;
- In addition, the Group received confirmation of financial support from its ultimate parent company that will enable it to continue in operation for at least 12 months from the date of the consolidated financial statements.

After considering all the factors above, related uncertainties, management's intentions and the Shareholder Group support confirmation, the management has a reasonable expectation that the Group will continue operations and for this reason believes it is appropriate to continue to adopt the going concern basis in preparing the consolidated financial statements.

The Group analysed the criteria under IFRS 5 'Non-current Assets Held for Sale and Discontinued Operations', for classifying the assets and liabilities of the Russian and Ukrainian businesses as a disposal group and has considered the following factors as of 31 December 2017:

- The agreement was non-binding and subject to certain conditions which included receipt of the necessary regulatory approvals, satisfactory completion of the due diligence process and agreement of the transaction price;
- The agreement did not outline specific details of the legal structure of the merger. Therefore, at the reporting date, the management had no intention to dispose or valid expectation that its operating subsidiaries would had been disposed;
- The approvals from the relevant antimonopoly authorities were outstanding;

- The management assessed the regulatory process in the different jurisdictions and the likelihood of such approvals to be denied or delayed, and based on its experience have concluded that there are reasonable concerns as of the reporting date;
- The Group shareholder concluded to the price and approved the sales deal structure only in the period post year end;
- The Group committed to the sale of the operating subsidiaries only subsequent to the yearend.

Based on the above analysis, the Group concluded that the IFRS 5 criteria were not met as of 31 December 2017 and, accordingly, the Group did not classify the disposal group as Held for Sale.

#### (c) Basis of measurement

The consolidated financial statements are prepared on the historical cost basis.

#### (d) Functional and presentation currency

The Company's functional currency is the Euro. Items included in the Group's financial statements are measured using the currency of the primary economic environment in which each entity operates. The functional currencies of the Russian and Ukrainian subsidiaries are the Russian Rouble and the Ukrainian Hryvnia, respectively. Management has selected to use the Euro as the presentation currency for the consolidated financial statements. All financial information is presented in thousands of Euro unless stated otherwise and has been rounded to the nearest thousand.

#### (e) Use of estimates and judgements

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from those estimates.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2017.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Company in these condensed consolidated interim financial statements are the same as those applied by the Company in its consolidated financial statements as at and for the year ended 31 December 2017.

#### 10. Taxation contingencies

#### (a) Taxation contingencies in the Russian Federation

The taxation system in the Russian Federation is relatively new and is characterised by frequent changes in legislation, official pronouncements and court decisions, which are often unclear, contradictory and subject to varying interpretation by different tax authorities. Taxes are subject to review and investigation by a number of authorities, which have the authority to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years; however, under certain circumstances a tax year may remain open longer. Recent events within the Russian Federation suggest that the tax authorities are taking a more assertive position in their interpretation and enforcement of tax legislation.

These circumstances may create tax risks in the Russian Federation that are substantially more significant than in other countries. Management believes that it has provided adequately for tax liabilities based on its interpretations of applicable Russian tax legislation, official pronouncements and court decisions.

#### (b) Taxation contingencies in the Russian Federation

However, the interpretations of the relevant authorities could differ and the effect on these consolidated financial statements, if the authorities were successful in enforcing their interpretations, could be significant.

#### (c) Taxation contingencies in Ukraine

The Company performs a significant part of its operations in Ukraine and therefore within the jurisdiction of the Ukrainian tax authorities. The Ukrainian tax system can be characterized by numerous taxes and frequently changing legislation which may be applied retroactively, open to wide interpretation and in some cases are conflicting. Instances of inconsistent opinions between local, regional, and national tax authorities and between the Ministry of Finance and other state authorities are not unusual. Tax declarations are subject to review and investigation by a number of authorities that are enacted by law to impose severe fines, penalties and interest charges. A tax year remains open for review by the tax authorities during the three subsequent calendar years, however under certain circumstances a tax year may remain open longer.

These facts create tax risks substantially more significant than typically found in countries with more developed systems. Management believes that it has adequately provided for tax liabilities based on its interpretation of tax legislation, official pronouncements and court decisions. However, the interpretations of the relevant authorities could differ and the effect on these consolidated financial statements, if the authorities were successful in enforcing their interpretations, could be significant.
